Rabies Clinic Set

This year, members of the Utah State Veterinary Medical Association will again sponsor their annual, low cost rabies vaccination clinic for pets. The clinic this year will be held at the Heber City Shop located at 345 North 400 West in Heber, on Saturday, February 22 from 10:00 a.m. to 2:00 p.m. For safety purposes, please bring dogs on leashes and cats in containers.

Rabies is a deadly virus that affects all mammals. It has been controlled effectively in the

United States by animal control measures and vaccinations of dogs and cats. Not too many years ago, dogs were the main source of this disease to the public. Now with routine vaccination and effective animal control, it is fairly rare for dogs or cats to become infected.

Representatives from Heber City, Midway and Wasatch County will be available for sale of licenses and the cost of the rabies vaccination will be \$7.00 per shot.
